Talked with hoyd Crawford, staff hirector of the Bouse Foreign Affairs Committee, indicating that I had reviewed Secretary Anak's testimony before the Committee in which he had referred the members to Mr. McCone and added that this did and give a great deal of guidance as to what the Chairman wished the Circotor to discuss. I six asked her. Crawford to discuss with the Chairman the fact that the Director may find it necessary to decline to discuss certain specific things since any discussion comes very close to must sensitive areas and that the Sirector would like to have the Chairman's support in dealing with this type of problem. Subsequently, Crawford advised he had stacussed this latter relat with the Chairman and Dr. Morgan said he would, of course, support the Firector in any way in this matter. The Chairman sing indicated the essential thing was for the Sirector to discuss the basic question of our shiftly to detect violations of the nuclear test han treaty. He also mentiosod there might be some questions from members m our relationables with ACCA particularly in connection with external research contracts let by ACDA. Cramford also agreed that it would be useful to have a technical check of the hearing room.

Following the call of Charles Da Tent, in the office of benetor Edwin L. Mechan, to General Carter's office, i talked with him to see if we could be of any sesistance. In Test indicated the Sentor had a few questions with respect to the nuclear test bar treaty. it was loft with he l'ant that he would talk with the Senator agon his return to town temperary might and see if the Sensior wished to meet with someone Mher than General Carter.

Assett Fee telephoned saking if we could be of some assistance in connection with questions regarding Enseion/English translation concerning the test ban treaty. I indicated I did not feel that this was no Agency responsibility and indicated I delieved questions on this had been releed and that State Department had gone into the matter very thereaghly. Fee said he would look elsewhere for appletance.
